

HUNDREDS OF CARS TOMATO CROP IS NOT OF FREIGHT ARE DAMAGED BY THE GOING THROUGH LIGHT FROST

Heavy freight business is being experienced by the railroads entering Ogdén and the yard forces are kept busy preventing congestion of cars.

During the next 24 hours, reports show that 250 cars will be delivered from the Southern Pacific to the Union Pacific and about the same number will arrive in Ogdén to be sent west and northwest. Yesterday 250 cars were sent out of Ogdén and 255 cars came in.

The traffic is declared to be larger than the business done during the same time last year.

The frost last night nipped the tomato vines throughout the county but no serious damage was done, according to reports of Weber county farmers who inquired of the farmers with whom they hold contracts.

The canners and farmers are hopeful that the overcast sky will continue until the temperature can rise sufficient to prevent a frost if the weather clears. Thermometers prove the temperature to be several degrees warmer than yesterday, although a light fall fell. The moisture will have the effect of staying off frost.

STRIKERS SHOOT CAMP MARSHAL

Officer Killed When He Discovers Three Foreigners Tearing Up Bridge

MURDERER UNKNOWN

Men Escape to Hills, Posse Is Organized and in Pursuit.

Trinidad, Colo., Sept. 24.—The first disorder in the Colorado coal miners' strike occurred at noon today when Camp Marshal Robert Lee at Segundo, near here, was shot and killed. According to information received here, the shooting was done by three strikers.

The shooting was done by a foreign coal miner, name unknown, who, with two other foreigners had been detected by Lee in the act of tearing up a small footbridge at that camp. Lee was shot from his horse, the bullet striking him in the breast and penetrating a lung. The foreigners made their escape to the hills and are still at large. A posse has been organized and is in pursuit.

The foreigners are strikers and had come into the camp this morning from one of the neighboring camps.

John Thompson, an electrician, who went to the aid of the marshal, was shot at twice by the foreigners in their flight, the bullets going wild.

Following the shooting at Segundo, reports were circulated that the strikers in various camps are arming and planning to march on the mines which are still in operation. These rumors, while they caused some uneasiness, could not be verified.

CLARK DEFENDS THE DEMOCRATS

Says Continual Howl About Caucus Is Most Idiotic Thing in Generation.

SCORES REPUBLICANS

Tells Them They Talk Altogether Too Much For Their Own Good.

Washington, Sept. 24.—Speaker Clark quit his travel today to take the floor to defend the Democratic caucus against Republican attack.

"This continual howl about the caucus is the most idiotic thing that has ascended to heaven in the last generation," shouted the speaker.

"The country wants to know what congress does. It does not care three whoops how it did it. We have revised the tariff and put through a bill changing the banking and currency system."

"If those measures are not good we will be the ones to suffer; if they are we will gain, but we do not propose to let you Republicans bring up other subjects on the floor while they were under consideration and distract the attention of the members and of the country from the great issues involved."

Speaker Clark said he would not answer Republican attacks by calling attention to the way former Speakers Reed and Cannon put through important legislation.

Pot Calling Kettle Black.

"That would be a case of the pot calling the kettle black," he said. "A lot of you fellows have been talking too much for your own good anyhow."

He concluded the speaker to the accompaniment of a prolonged outburst of applause from the Democrats.

Progressive Leader Murdock took issue with Speaker Clark on this statement that the country did not care how congress did things so long as they were done. Mr. Murdock said the caucus resulted in lack of decorum, brought about a small attendance and ended in a rag race. He said there was no reason why the doors of every committee room should not be open.
